Project Description:

The Runaway Homeless Youth (RHY) CO-ED shelter is a community based program specifically designed to assist runaway, homeless, victims of abuse and other similarly troubled youth and their families. The program provides a 24-hour shelter and care as a safe home for runaway, homeless and victims of abuse for up to 30 days during which case management services are provided in resolving their issues of conflict in times of crisis at the same time keeping focus on strengthening the family as a collective unit. The case management unit includes crisis intervention, individual program planning, group and family counseling, aftercare, outreach and referrals. The primary purpose of the program is to 1) provide a viable temporary safe alternative to the natural home, detention center or the streets; and 2) to facilitate the problem solving process of case management by lowering the level of tension in the family to a point in which constructive dialog may begin.

Project Goals and Objectives; Project Activities; Project Performance Measures; Project Outcomes:

Responsible Parties: Case Manager

Problems Encountered:

A challenge encountered this quarter is again not being able to identify an alternate placement in a timely manner for youth who are wards of the state due to exhaustion of alternate familial placement and limited foster care placement. The youth and parent are always encouraged to sign up for aftercare services to help with the transition back home easier when problems arise. Unfortunately most clients who have exited our care this quarter opted not to participate in aftercare, but were still provided with a transitional plan to be used at their discretion. Parent involvement in programs (groups and supportive counseling) is limited; parents do not participate in all the services we recommend despite agreeing to participate and access other services upon intake of client. Finally one of the key issues were parents who failed to comply and provide positive family support to the youth in our shelter.

Future Plans:

The Case Management and Counseling departments continue to develop corrective action plans to address several deficiency areas such as improving data collections, monitoring of case management activities, and case updates. Sanctuary continues to partner with agencies such as Child Protective Services and the Department of Youth Affairs by increasing day to day communication to discuss ways to better serve clients in shelter. We now also have funding through the Basic Center grant to assist in funding self referrals in shelter. To assist with these plans we continue to increase our staff population, and have hired a new case manager. Executive Director Theresa C. Arriola continues to partner up with many other organizations on island to promote and bring about awareness on issues that directly affect the youth in our community.

Performance Measures:

Social Competence	Case Manager and shelter staff have reported to observe improvement in social interactions and, defined as maintaining positive relationships with others 12 of 18 (80%) clients served within this reporting period. Observations are based on demeanor and nature of client interactions as documented using daily client progress reports.
Family Relationships	Noted improvements in family relationships, defined as willingness to address family issues, and improved styles of communication, has been reported by case manger 9 out of 13(69%) based on parents verbal feedback to the Case Manager. Several of the clients during this reporting period were wards of the state. The number provided above only includes clients who were able to work towards reunification with a family member or foster parent. It is challenging to work on a family relationship when a family member or foster parent is not identified. More than 30 days are needed to work on fostering a positive relationship when working with CPS clients and their family members or foster parent.

Families Satisfied with Program	<p>A total of 13 out of 15 family members reported verbal feedback during this reporting period. Of the total number of family members who have reported , 87% have stated to be satisfied with all aspects of the program including a 73% of families stating that they will access Sanctuary services for future familial issues. Again the numbers above only include cases in which parental involvement is present. Areas surveyed include:</p> <ol style="list-style-type: none"> 1) Noted quality in family relationships 2) Future access of services 3) Accessibility and response time 4) Overall rating of services 5) Recommending services to others
Client Satisfaction	<p>Of all clients who have completed satisfaction survey, 77% have reported an increased quality in familial relationships. A total of 77% have stated that they had good or very good access to services with prompt response time. A total of 77% have rated overall services as good or very good and 90% of clients surveyed have indicated that they would likely or very likely refer others to Sanctuary for services needed.</p>
